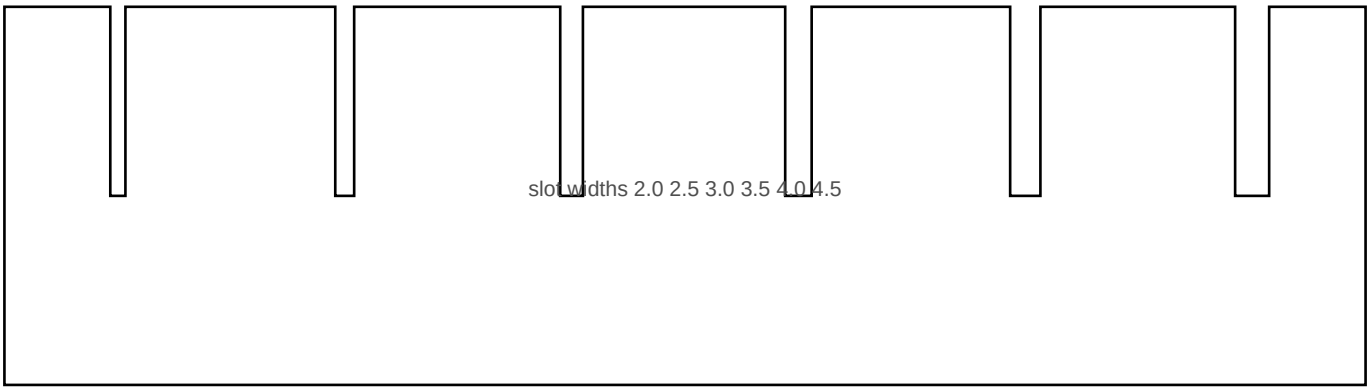
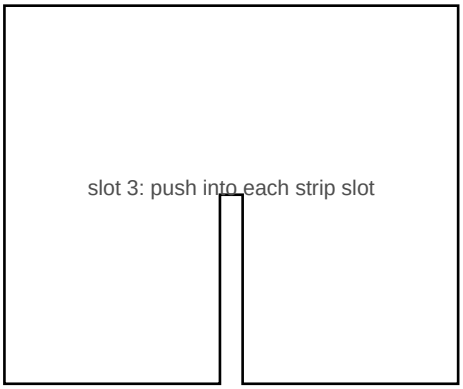
01 Test strip: find your slot width

Fits on one A4 sheet. Cut both parts. Push the key into each slot of the strip. The right slot is the narrowest one that goes in fully without tearing. If it is not 3.0, ch

Solid = CUT dashed blue = SCORE + FOLD gray = GLUE + = punch hole Board 3 mm (slots 3 mm)





Cut both parts. Push the key into each slot of the strip.
The right slot is the narrowest one that goes in fully without tearing.
If it is not 3.0, change T in generate.py and run it again.
