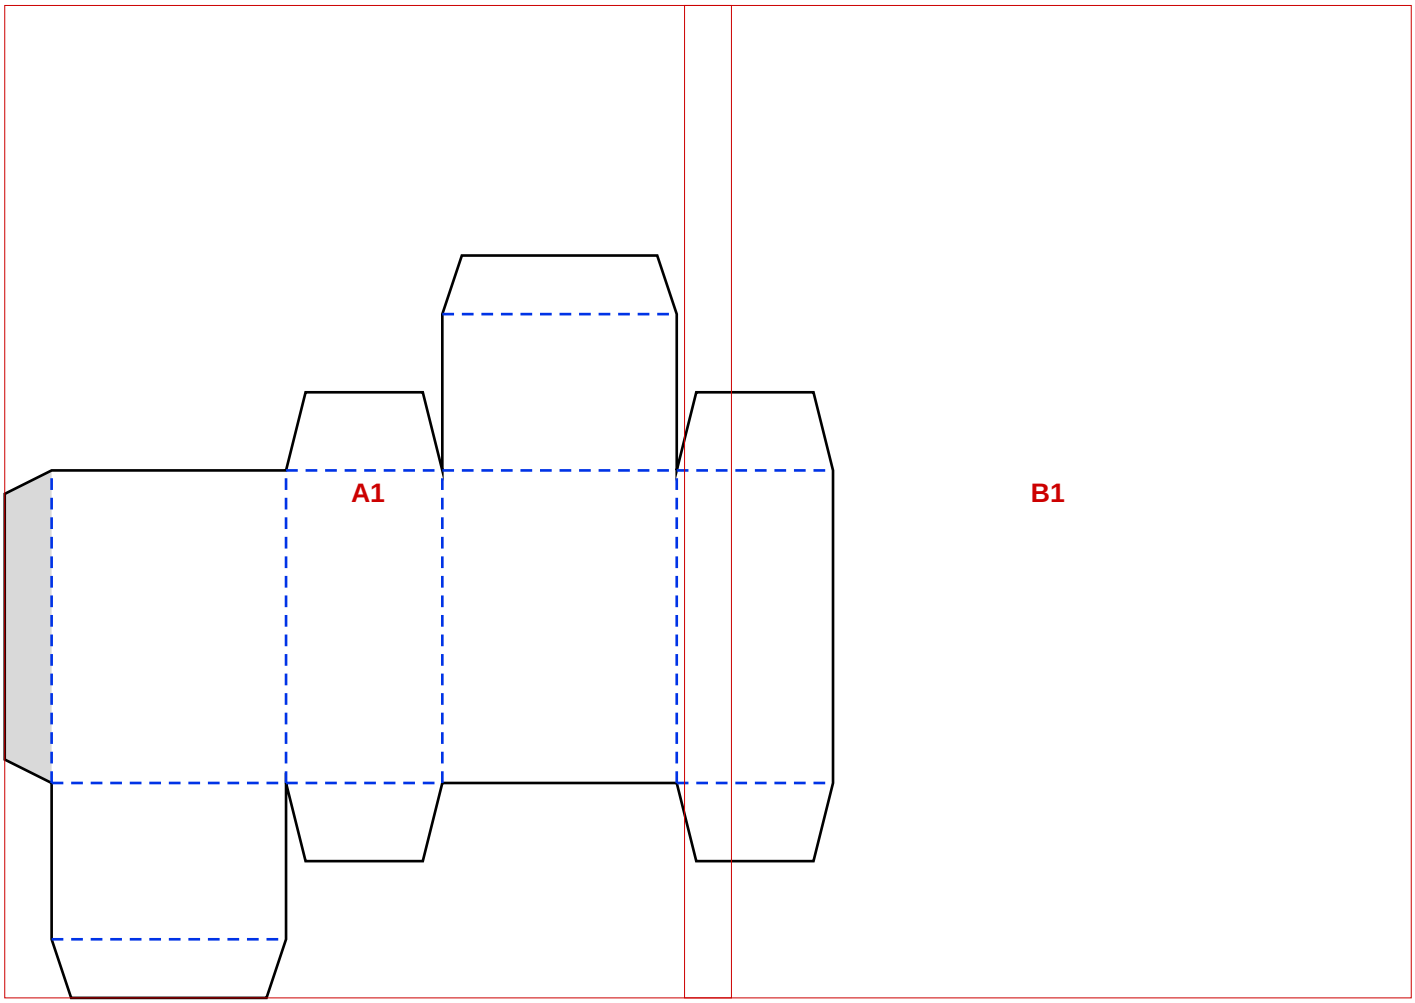
06 Tuck-end box (60 x 40 x 80)

2 A4 sheets (2 across x 1 down) + this map. Print ALL pages at 100 % / actual size.

Solid = CUT dashed blue = SCORE + FOLD gray = GLUE + = punch hole Board 3 mm (slots 3 mm)



How to join the sheets:

1. Cut each sheet along its gray frame on the LEFT and BOTTOM side only (not on A-column / bottom row).
2. Lay it over its neighbour so the red crosses sit exactly on top of each other. Tape it.
3. Join a whole row first, then the rows. Then glue the template to the board and cut.

Parts: tuck box, one piece of thin card

Use thin card (cereal box, 0.3-0.5 mm), not corrugated board.

Cut the outline, score all dashed lines, pre-fold every score.

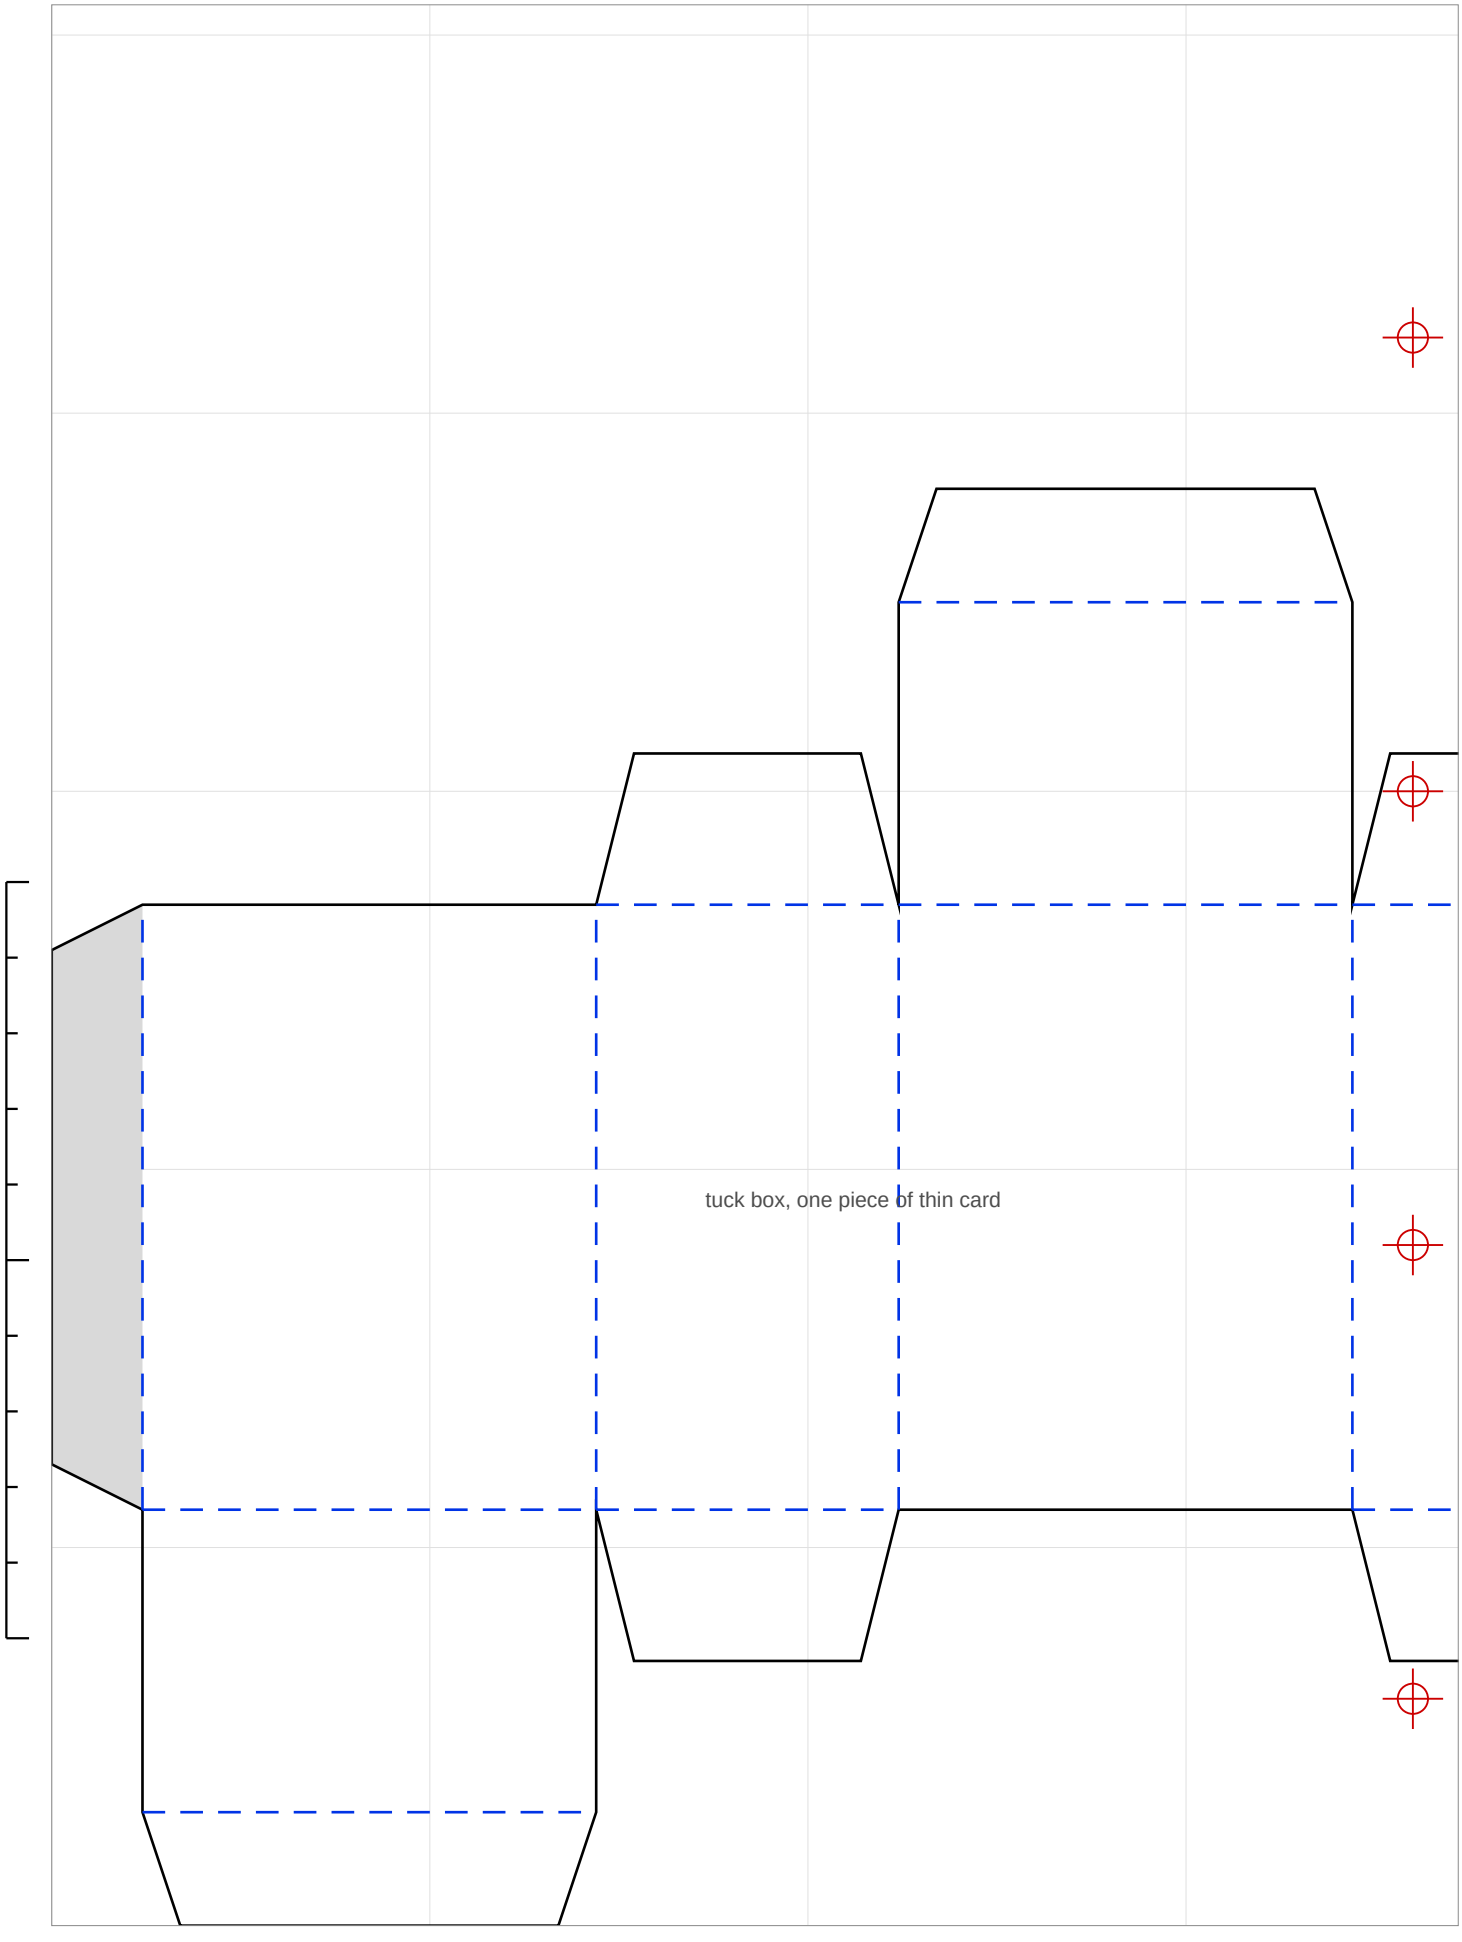
Glue the gray flap inside the last side panel. Tuck the lids in at both ends.

100 mm: measure it! (print at 100 %)

06 Tuck-end box (60 x 40 x 80) - sheet A1 (2 x 1)

Print at 100 %. Trim the LEFT and BOTTOM edge along the gray frame, then overlap the neighbour and match the red crosses.

Solid = CUT dashed blue = SCORE + FOLD gray = GLUE + = punch hole Board 3 mm (slots 3 mm)

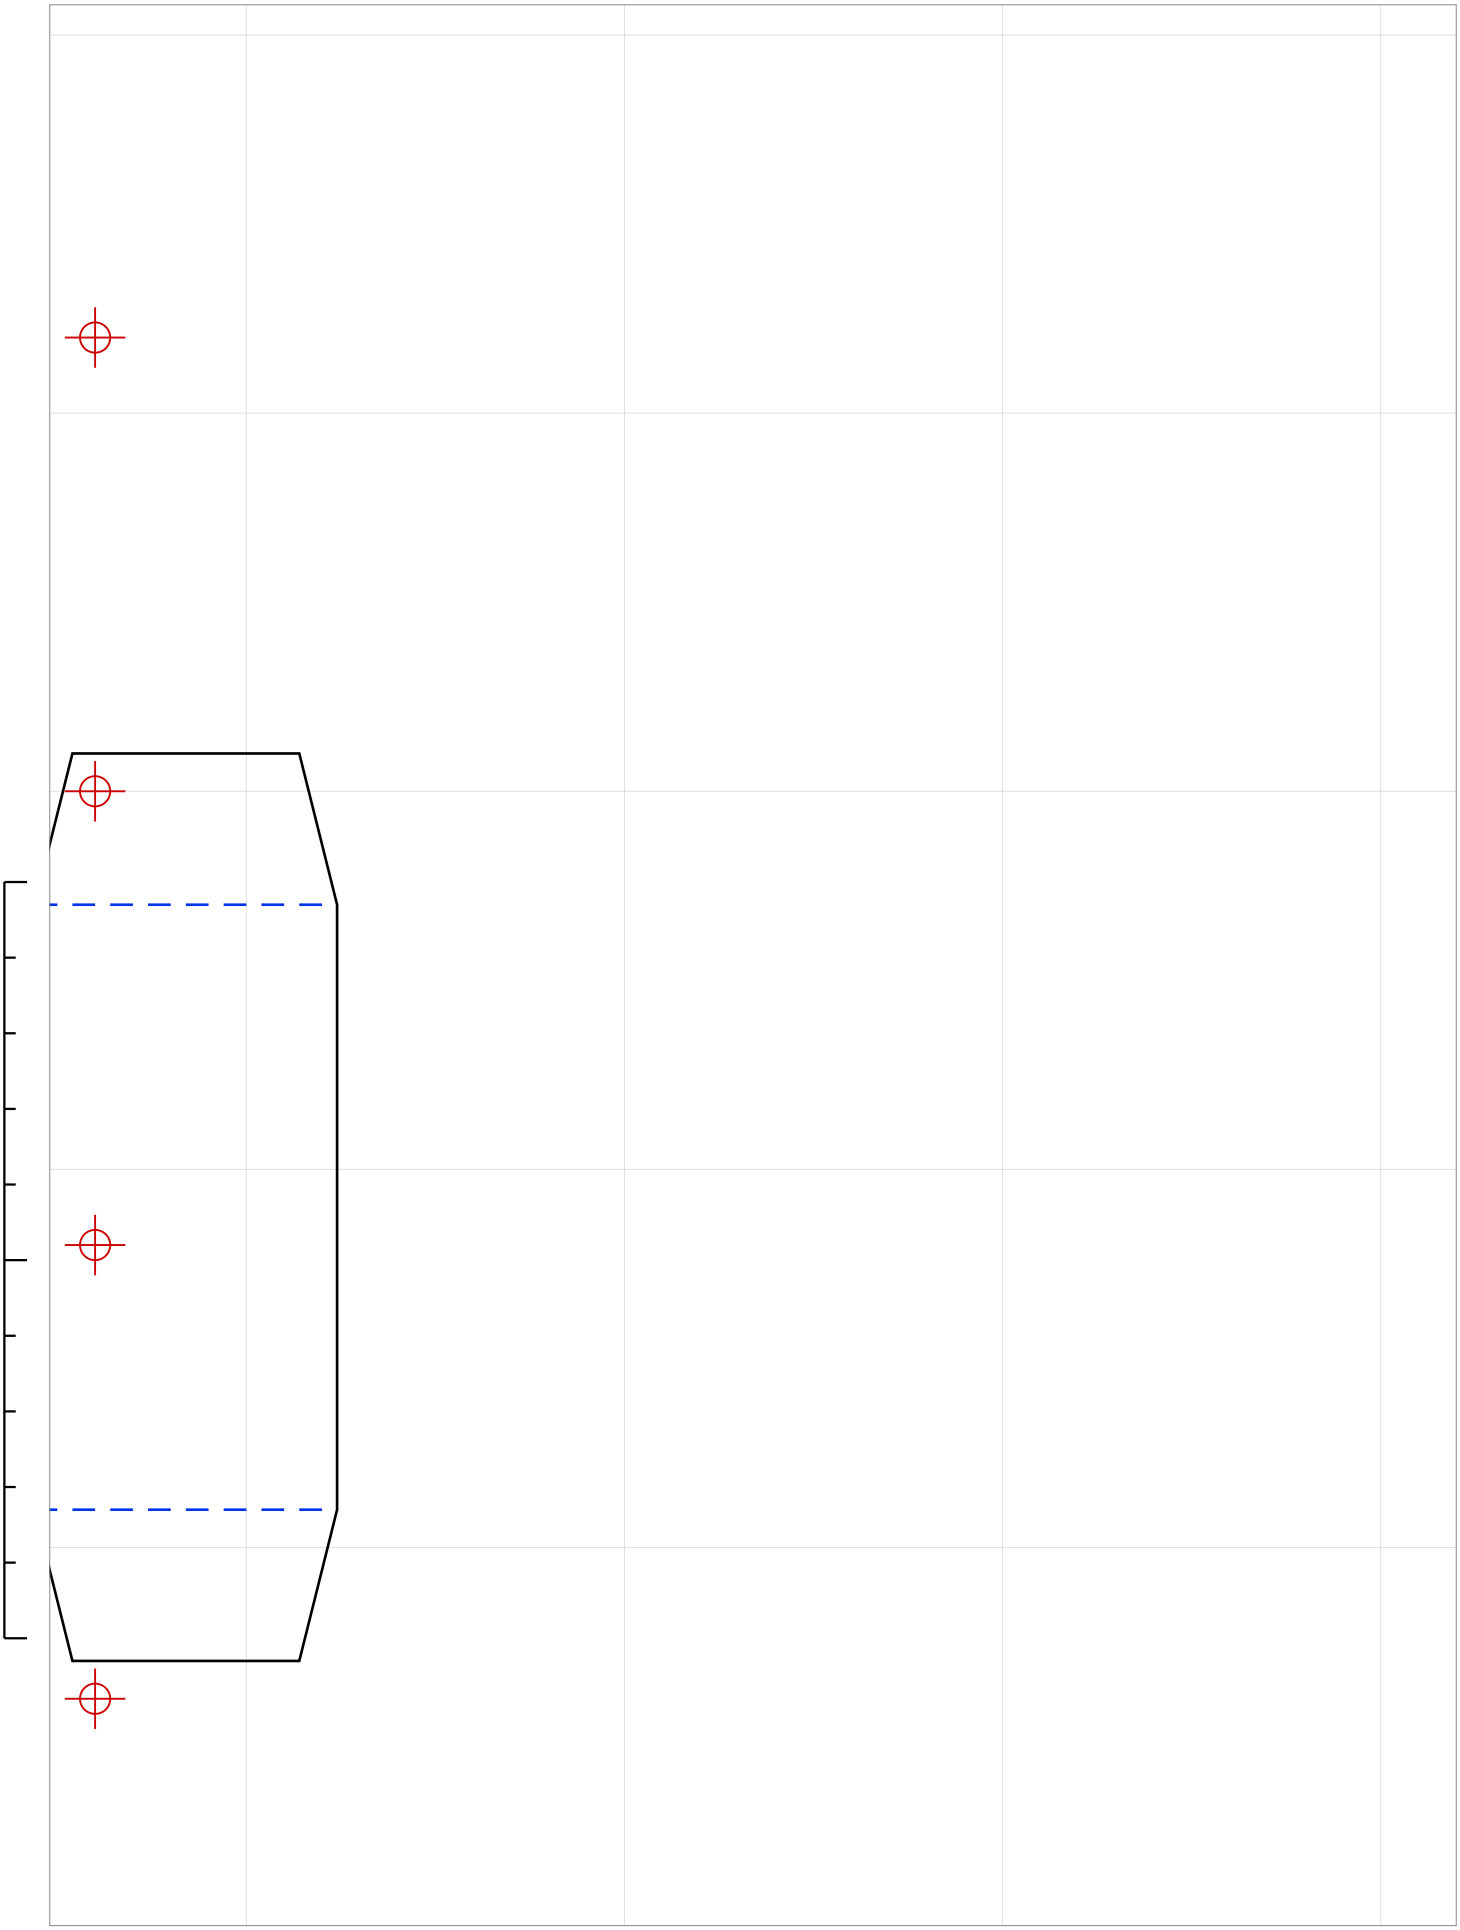


100 mm: measure it! (print at 100 %)

06 Tuck-end box (60 x 40 x 80) - sheet B1 (2 x 1)

Print at 100 %. Trim the LEFT and BOTTOM edge along the gray frame, then overlap the neighbour and match the red crosses.

Solid = CUT dashed blue = SCORE + FOLD gray = GLUE + = punch hole Board 3 mm (slots 3 mm)



<- left edge overlaps sheet A1

100 mm: measure it! (print at 100 %)
